[Update Profile](#)

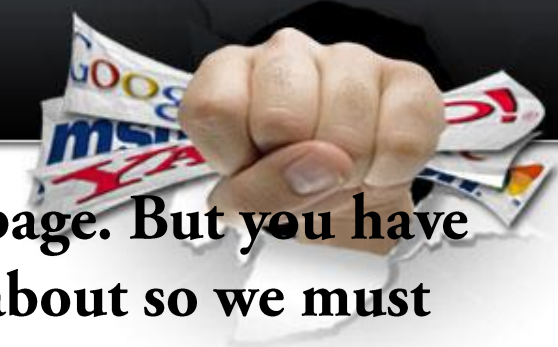

Enter the about information

Click update profile

In order to check if you have successfully put the about on the page. Just click visit site and click open link in new tab.

The screenshot shows the WordPress admin interface for a user profile. The 'Visit Site' link is highlighted in yellow. A context menu is open over this link, showing options: 'Open link in new tab', 'Open link in new window', 'Open link in incognito window', 'Save link as...', 'Copy link address', 'Copy', and 'Inspect element'. The 'Copy' option has 'Ctrl+C' next to it. Two yellow arrows are overlaid on the image: one points from the left towards the 'Visit Site' link with the text 'Click visit site', and another points from the right towards the 'Open link in new tab' menu option with the text 'Click open link in new tab'. The background shows the 'Profile' section with 'User updated.' and 'Personal Options' including 'Visual Editor', 'Admin Color Scheme' (with 'Blue' and 'Gray' options), and 'Keyboard Shortcuts'.

So we have successful put the about on the page. But you have notice that there is a different name on the about so we must change it into Dallas lawn care.
