

“Set up **Wordpress Settings**”

In order to set up the wordpress settings you must login on your wordpress account. Enter the **username** and the **password** and click **login**.

## Click settings

The screenshot shows a Firefox browser window displaying the WordPress dashboard for 'Lawn Care Service'. The address bar shows the URL `http://lawncareservicelandscapingdallastexas.com/wp-admin/`. The dashboard includes a sidebar with menu items: Dashboard, Posts, Media, Links, Pages, Comments, Appearance, Plugins (with a red notification icon), Users, Tools, and Settings. A yellow warning banner at the top states: 'All in One SEO Pack must be configured. Go to [the admin page](#) to enable and configure the plugin.' The 'Right Now' section shows: 1 Post, 1 Page, 1 Category, 0 Tags, 1 Comment, 1 Approved, 0 Pending, and 0 Spam. The 'QuickPress' section has fields for Title, Content, and Tags. The 'Recent Drafts' section shows 'There are no drafts at the moment.' A white arrow with the text 'Click settings here' points to the 'Settings' menu item in the sidebar.

Choose a city in the same timezone as you.  
This timezone is currently in standard time.

Click writing

Add the url below on the update services text box. Then click save changes.

The screenshot shows a web browser window with the URL `http://www.lawncareservicelandscapingdallastexas.com/wp-admin/options-writing.php`. The page is titled "Post via e-mail" and contains a form with the following fields:

- Mail Server: `mail.example.com` (Port: `110`)
- Login Name: `login@example.com`
- Password: `password`
- Default Mail Category: `Uncategorized`

Below the form is the "Update Services" section, which includes a text area containing the following URLs:

```
http://pinger.blogflux.com/rpc/  
https://phobos.apple.com/webObjects/HZFinance.woa/wa/pingPodcast  
http://bblog.com/ping.php  
http://api.feedster.com/ping.php
```

At the bottom of the form is a "Save Changes" button. Two yellow callout boxes with black outlines provide instructions: one points to the "Save Changes" button with the text "Click save changes", and another points to the "Update Services" text area with the text "Enter the url listed below here".

**You must add this url on the writing update services text box .**

Permalink Settings - Lawn Care S... x

Lawn Care Service Visit Site New Post

I can tell,

Dashboard Permalink Settings

All in One SEO Pack must be configured. Go to [the admin page](#) to enable and configure the plugin.

By default WordPress uses web URLs which have question marks and lots of numbers in them, however WordPress offers you the ab structure for your permalinks and archives. This can improve the aesthetics, usability, and forward-compatibility of your links. A [numb](#) are some examples to get you started.

Common settings

<input type="radio"/> Default	http://www.lawncareservicelandscapingdallastexas.com/?p=123
<input type="radio"/> Day and name	http://www.lawncareservicelandscapingdallastexas.com/2009/08/26/sample-post/
<input type="radio"/> Month and name	http://www.lawncareservicelandscapingdallastexas.com/2009/08/sample-post/
<input type="radio"/> Numeric	http://www.lawncareservicelandscapingdallastexas.com/archives/123
<input checked="" type="radio"/> Custom Structure	<code>/%category%//%postname%/</code>

Optional

If you like, you may enter custom structures for your category and tag URLs here. For example, using `topics` as your category base `http://example.org/topics/uncategorized/`. If you leave these blank the defaults will be used.

Click custom structure

Enter the code here

Then click **save changes**

The screenshot shows a web browser window with the URL `http://www.lawncareservicelandscapingdallastexas.com/wp-admin/options-permalink.php`. The page title is "Permalink Settings - Lawn Care S...". The left sidebar contains a menu with "Settings" selected, and sub-items like "General", "Writing", "Reading", "Discussion", "Media", "Privacy", "Permalinks", "Miscellaneous", "All in One SEO", "Featured Content", "Gallery", "Popularity", and "XML-Sitemap". The main content area shows the "Permalinks" section with the following options:

- Default: `http://www.lawncareservicelandscapingdallastexas.com/?p=123`
- Day and name: `http://www.lawncareservicelandscapingdallastexas.com/2009/08/26/sample-post/`
- Month and name: `http://www.lawncareservicelandscapingdallastexas.com/2009/08/sample-post/`
- Numeric: `http://www.lawncareservicelandscapingdallastexas.com/archives/123`
- Custom Structure:

Below the options is an "Optional" section with the text: "If you like, you may enter custom structures for your category and tag URLs here. For example, using `topics` as your category structure, you can enter `http://example.org/topics/uncategorized/`. If you leave these blank the defaults will be used." There are two input fields: "Category base" and "Tag base". At the bottom left of the main content area is a blue button labeled "Save Changes". A large yellow arrow with a black outline points from the right towards the "Save Changes" button, with the text "Click save changes" written inside the arrow.
